Latest ACS Cancer Statistics Report Highlights Alarming Trends, Disparities in Prostate Cancer

Estimated New Cases

			Males	Females			
Prostate	288,300	29%			Breast	297,790	31%
Lung & bronchus	117,550	12%			Lung & bronchus	120,790	13%
Colon & rectum	81,860	8%			Colon & rectum	71,160	8%
Urinary bladder	62,420	6%			Uterine corpus	66,200	7%
Melanoma of the skin	58,120	6%			Melanoma of the skin	39,490	4%
Kidney & renal pelvis	52,360	5%			Non-Hodgkin lymphoma	35,670	4%
Non-Hodgkin lymphoma	44,880	4%			Thyroid	31,180	3%
Oral cavity & pharynx	39,290	4%			Pancreas	30,920	3%
Leukemia	35,670	4%			Kidney & renal pelvis	29,440	3%
Pancreas	33,130	3%			Leukemia	23,940	3%
All Sites	1,010,310	100%			All Sites	948,000	100%

Estimated Deaths

			Males	Females			
Lung & bronchus	67,160	21%			Lung & bronchus	59,910	21%
Prostate	34,700	11%			Breast	43,170	15%
Colon & rectum	28,470	9%			Colon & rectum	24,080	8%
Pancreas	26,620	8%			Pancreas	23,930	8%
Liver & intrahepatic bile duct	19,000	6%			Ovary	13,270	5%
Leukemia	13,900	4%			Uterine corpus	13,030	5%
Esophagus	12,920	4%			Liver & intrahepatic bile duct	10,380	4%
Urinary bladder	12,160	4%			Leukemia	9,810	3%
Non-Hodgkin lymphoma	11,780	4%			Non-Hodgkin lymphoma	8,400	3%
Brain & other nervous system	11,020	3%			Brain & other nervous system	7,970	3%
All Sites	322,080	100%			All Sites	287,740	100%

- Incidence rate of prostate cancer, the most diagnosed and second most deadly cancer among men in the US, rose by 3% per year from 2014 to 2019.
- Alarming trend follows a 2-decade decline in prostate cancer incidence and was spurred by increases in advanced-stage diagnoses, according to the report.
- Localized prostate cancer, the 5-year survival rate is 99% due to the efficacy of surgical intervention and radiation therapy.
- Metastatic prostate cancer, 5-year survival is just 32%.

- The incidence rate of prostate cancer was 70% higher among Black men than White men, and mortality was 2 to 4 times higher in Black men than in other ethnic groups.
- ACS announces Improving Mortality from Prostate Cancer Together (IMPACT), an initiative that will include advocacy, patient support, and research strategies to improve outcomes.
- Goal of the program is to reduce mortality for all men with prostate cancer, placing an emphasis on those disproportionately affected.
