

Arkansas Cervical Cancer Roundtable

William Greenfield, MD, MBA, FACOG

Medical Director for Family Health

Arkansas Department of Health

CERVICAL CANCER

Why Have a Cervical Cancer Roundtable?

- **Roundtables:**
 - Opportunity for colleagues to discuss and exchange ideas in an informal setting
- Arkansas's incidence and mortality **exceeds** the national average
- Effective ***screening and vaccination*** exists

Who should participate in the Roundtable

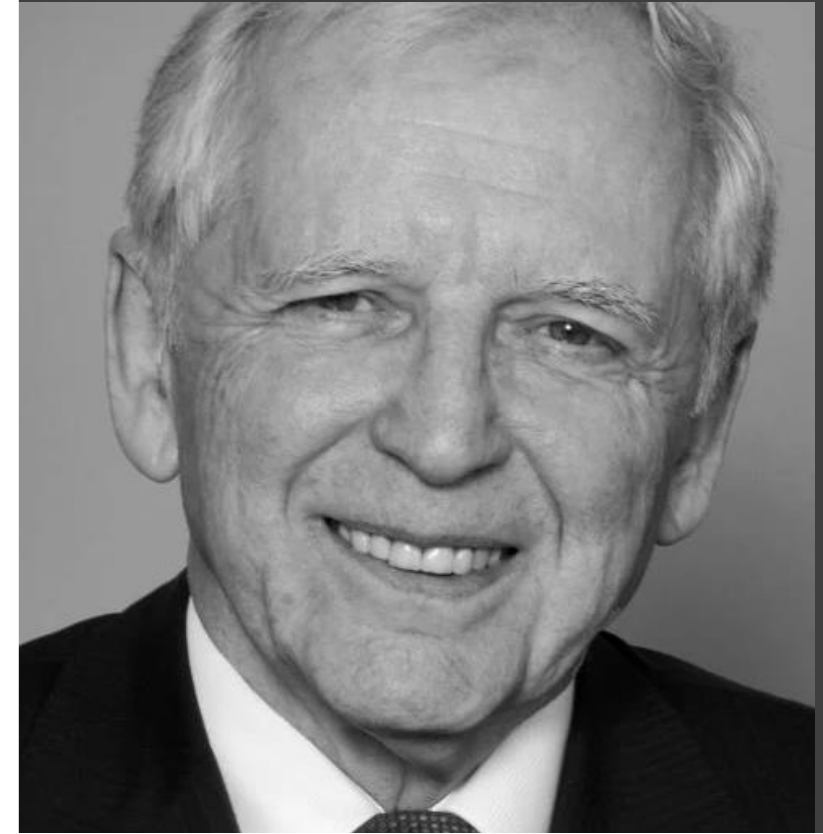

- Coalition of stakeholder organizations
 - Public
 - Private
 - Community Based
 - Clinical
- Develop initiatives and implementation strategies to decrease cervical cancer

Framework, structure, and management

- Structure based on mutual respect of stakeholders
- Quarterly? *TBD*
- ACC to assist with organization and support
- Goals:
 - Increase cervix cancer screenings and HPV vaccinations
 - Decrease mortality rates over the next 5 years
 - Engage key organizations to institute policy and systems changes
